Plantronics CS60

Plantronics CS60™

Enjoy the freedom of your office space

The Plantronics CS60 wireless headset is a general-purpose, entry-level wireless headset, which enables you to make the most of the space around you – your desk is just the starting point.

Feel free to wave your hands, walk to the water dispenser, or search for that vital document while you carry on your phone-call. It's good for productivity to be able to write or type notes, or access data without bending your neck into an uncomfortable position whilst trying to support the telephone handset. And it's energising to stretch your arms or legs while you talk.

Plantronics headsets are simple to use and offer the best sound quality as well as absolute comfort and flexibility. Talk-time of up to nine hours ensures that you will have wireless freedom throughout your entire business day. This headset has a choice of wearing styles – earloop, headband or optional neckband – for style and comfort.

The CS60 is compatible with most office telephones and has a noise-cancelling microphone. If you work in an open-plan or bustling environment this is an excellent and cost-effective way to set yourself free.

Plantronics CS60

Sound Innovation™ for missions to the moon. And for everyday life on this planet, too.

In 1969, a Plantronics headset carried the historic first words from the moon: "That's one small step for man..." From the man on the moon to the man on the street, Plantronics is an innovation leader dedicated to creating communication solutions for people who understand and appreciate the real freedom of space. From outer space to inner space, find your space.
