

Polycom® RealPresence Trio™

The first smart hub for group collaboration

In the modern workplace, collaboration is key. Forget everything you know about the way a conference phone works today. RealPresence Trio offers not only the most exceptional audio fidelity, but it provides an integrated, cost-effective solution for empowering people to work the way they want to work using audio, content or video—or all three.

TODAY'S PROBLEMS

Today's conference rooms often have a "Frankenstein" approach to collaboration—disparate solutions that may or may not work well together, or in the case of huddle rooms may not have any technology at all.

THE SOLUTION FOR TODAY AND TOMORROW

RealPresence Trio reinvents the conference phone experience enabling the workforce to work smarter and more productively—it's cost-effective to deploy in the growing number of huddle rooms and team environments out there.

BENEFITS

Share ideas using the first conference phone on the market enabling HD content sharing and video conferencing.

See their reactions with business-class video.

Hear their inflections with the most advanced audio technology.

Simple to use and deploy.

HEAR. SHARE. SEE. SIMPLY
